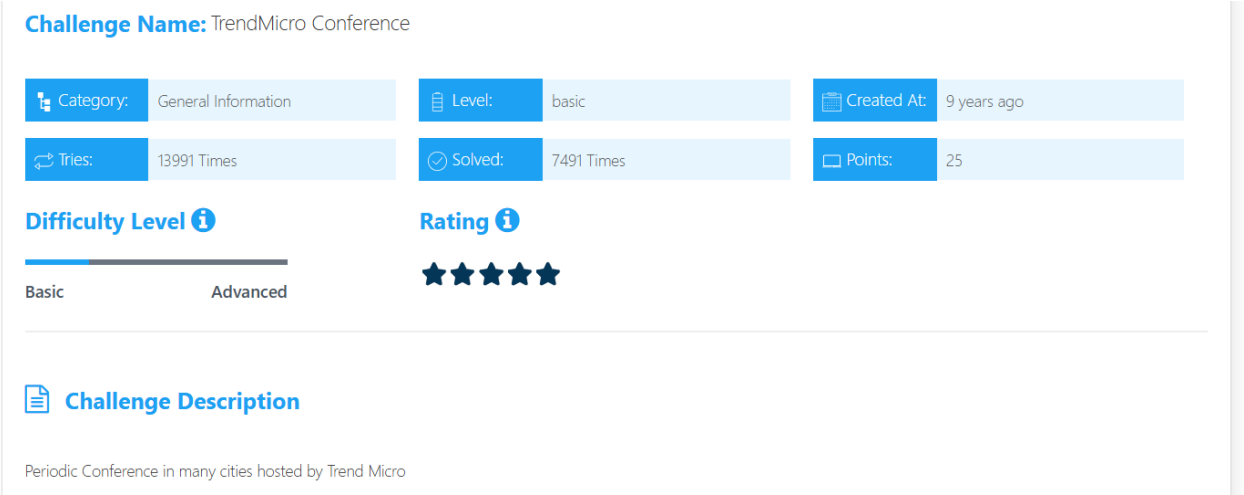
TrendMicro



Author: The Analyst: Hyposelenia

Challenge: TrendMicro

Category: General information

Date: 04/10/26

I. Objective

To identify the name of the periodic conference hosted by Trend Micro across multiple cities.

II. Background

Cybersecurity companies often organize conferences and events to share knowledge, discuss emerging threats, and present new technologies. These events bring together professionals, researchers, and organizations to collaborate and stay updated on the latest developments in the field.

III. Tool Used

- **Search Browser -** Used to research the conference hosted by Trend Micro

IV. Methodology

1. I searched the phrase: *"Periodic conference in many cities hosted by Trend Micro."*
2. The search results pointed to a well-known conference series organized by Trend Micro.
3. I identified the correct answer as **CloudSec**.
4. Submitted the answer.

V. Result

CloudSec

Answer

CloudSec

Submit

VI. Explanation

CloudSec is a global conference series organized by Trend Micro. It focuses on cloud security, cybersecurity trends, and emerging threats. The event is held in multiple cities worldwide and gathers industry experts to share insights, research findings, and best practices in securing digital environments.

VII. Conclusion

The challenge evaluates knowledge of cybersecurity organizations and their initiatives. By researching the given description, the correct answer was identified. This demonstrates the importance of being aware of major industry events and the role they play in advancing cybersecurity knowledge.
